

Introduction to expeditioning 2 days

Course Outline

This course is aimed at people who have been on an introductory course or are at a BCU 2-3* level, and are keen to discover what multi day trips are all about. We will learn how to plan a trip and load our kayaks with everything we need for an overnight trip before setting off to discover the wonders of the Cornish coastline. We will look out for dolphins, seals and basking sharks along the way to a spot suitable for wild camping. During the paddle it is possible to work on a variety of skills to help with your boat handling. The main emphasis of this course is to introduce you to the skills needed to plan an overnight trip and how to handle a kayak to get you where you want to go. We want you to experience why we love sea kayaking so much and help you explore the amazing scenery on our doorstep.

Experience needed

You need no previous sea kayaking experience but need previous kayaking experience in another discipline is essential. Attending an introduction to sea kayaking course gives the best grounding for this course. We will cover up to 10 miles in a day depending on conditions and the ability of the group.
