

Intro-mediate Courses

Available Throughout The Year

Course Outline

At Sea Kayaking Cornwall we have the privilege to coach you to kayak around some of the most stunning coastline Britain has to offer.

Let us help you on the next step towards building your skill set and confidence as we take you into more challenging conditions and introduce you to the surf zone. Choose between a 2-day or 5-day Intro-mediate courses.

The goal of the Intro-mediate course is to begin the process of making you a safer and more responsible paddler and help you become a better group member accepting further responsibility for yourself and your fellow paddlers by consolidating and increasing your skill set, knowledge and safety protocols.

We keep our group sizes small so that we can tailor the course to your needs and abilities.

Two Days Intro-mediate Course

On day one we refresh and introduce new paddle strokes, rescues, recoveries, safety procedures and protocols to add to the skills you already have. Day one is spent in a safe and comfortable coastal or estuary environment, depending on weather and wind conditions.

We will find a beach for a lunch break after having tried out some new techniques and strokes. You will learn on the move while enjoying a coastal journey.

Towards the end of the day you will practise wet skills – rescues, recoveries - building on the basic rescues you were taught on an introduction course. You will also have the opportunity to practise sculling strokes and begin learning to ‘roll’.

On day two, you get the opportunity to put your new skills into practice after having discussed and planned a journey for a suitable stretch of coastline, as part of the learning process to become a more valuable paddler to a group or your paddling partner.

Five Days Intro-mediate Course

Our Five-day Intro-mediate course is the perfect course to consolidate and build a good skill set with a solid foundation, with the aim of becoming a more independent sea kayaker. We begin the process of assisting and coaching you towards having the skills, confidence and environmental understanding to be able to plan your own day trips confidently.

We will have the opportunity to really get to know you over the five days, and coach you towards your full potential. We will be able to instil a clearer understanding of sea kayaking skills and safety and help you build your confidence. During the week you will cover skills, advice on safety kit and protocols, recoveries, rescues. You will begin learning different self-rescues, including how to roll your kayak and gain confidence paddling and controlling your boat in wind and the changing sea state that wind and tide create. You will have more opportunity to paddle in different locations and conditions, allowing you time to explore more of the amazing Cornish coastline as well as launching, landing and playing in the surf zone.

The five day course also allows us more time to look in depth at weather information, tides and the planning process allowing you a more complete base from which to build your experience

and knowledge towards becoming a valuable team member and safer paddler.

Experience Needed

To get the most out of the course you should be fairly fit and comfortable swimming or floating (assisted by a flotation device) in deep water. All participants will be required to complete a full medical questionnaire.

This course is suitable for kayakers who have completed an introduction course and have a basic understanding of the different strokes and how to use them to manoeuvre and control a sea kayak in calm conditions. If you have other kayaking experience in alternative crafts such as sit on top kayaks, or maybe you have kayaked informally before and now you wish to adopt a more structured understanding of sea kayaking and sea safety.

We would expect to cover distances of between 6 - 12 km (6 hours) a day depending on conditions.

If you have any questions regarding the required ability please feel free to contact us on info@seakayakingcornwall.com.

What Is Included
