## **Description**

Both Saturday and Sunday will consist of two sessions per day –

One small group rolling session with Dirk and Rachel from How We Roll- working on anything from your first roll, through to developing forward finishing rolls, trick rolls, hand rolls and skulling rolls.

One skills session- working on rescues, forward paddling techniques and rock hopping.

Monday will see us rolling in real situations, either on calm water while on a long paddle working on skills, and enjoying the stunning scenery (and the potential of wonderful wildlife) OR head to the surf to work on rolling in the waves, and catch some runs!
